

Scambi is the [Festival of Paneuretic Laboratories](#), conceived and organised by a team of 50+ **under-25** enthusiasts coming from different corners of the planet. What makes our festival unique is not our young staff composed exclusively by volunteers as much as it is the intention of offering experiences aimed at bringing together different people and ideas.

Therefore, our ultimate purpose is to encourage the participants to actively collaborate, by steering as far as possible from any passive participation. In order to do so, we take advantage of **Laboratories** (actually, the right term should be *workshops*, but we like this one the most). Laboratories are the beating heart of our work, the very mean through which we make different personalities bond.

The adjective [Paneuretic](#) is a neologism that synthesises the essence of our festival. It is the outcome of the wonderful clash that occurs when 30 people—often individuals who never met before—are transformed in a team of dreamers for a couple of hours. All of this takes place without any sort of exclusion: each and everyone of the festival's activities is **accessible to everybody**, regardless of their age, their race, their gender, their political or religious orientation, and, above all, without any boundary set by physical or psychological disabilities.

The Festival's setting is special if not magical. Every laboratory is located in a different corner of *Pigna*, the historical center of Sanremo, a little city in North-West Italy. Not only we love and value the territory, but we aim at **stimulating the local community** by actively involving it.

All of the associations, firms, collectives, and individuals getting in touch with Scambi are pushed at becoming more welcoming, giving birth to a colourful and open way of thinking, focused on listening and on reciprocal respect.

The first edition of Scambi took place during the last week of August 2021. It satisfied and surpassed expectations: more than 40 guests hosted 15 laboratories and two night shows, while our short movies contest, [Dissolvenze](#), received more than 150 submissions from 31 countries all over the world. Our unforgettable audience was composed by 400 unique participants that booked the activities around 1500 times.

We had the opportunity of partnering up with [many great and inimitable entities](#), thanks to which Scambi 2021 became true.

We would be humbled to welcome you too on board this ship, sailing from August 25 to 28 next Summer.
